

## Windows 10 Compatibility Updates

August 10, 2015

On July 29, 2015 Microsoft released its new Windows 10 operating system. inData welcomes this new version and today released Windows 10 compatible single user and network license updates for the following software products:

TrialDirector, TimeCoder Pro, TimelineXpress, DepoView

inData recommends that all current and future Windows 10 users install the new versions as soon as possible to ensure their software continues to operate properly. Instructions for obtaining the updates are as follows.

*TrialDirector 6.8.1802 Update* – This update is available free of charge to TrialDirector 6 license holders with a current maintenance contract and can be obtained by selecting Check for Updates from the Help menu. Users may also select TrialDirector 6 / Check for Updates from the Start menu to download and install the update.

Users with expired maintenance or earlier versions may receive this update by calling Customer Care at 800-828-8292 to renew their maintenance contract and/or upgrade to version 6.

Users upgrading network versions should contact Customer Care for the installation file and instructions.

*TimeCoder Pro 6.7.1802 Update* – This update is available free of charge to all TimeCoder Pro license holders. Users may either [click here](#) to download the update, then double-click the saved file to install. Alternatively, from within the TimeCoder Pro application, users may select Show Product Bulletin in the Help menu for instructions and a download link. Users may also select TimeCoder Pro 6 Update from the Start menu to download and install the update.

*TimelineXpress 4.7.1802 Update* – This update is available free of charge to all TimelineXpress license holders. Users may [click here](#) to download the update, then double-click the saved file to install. Users may also select TimelineXpress Update from the Start menu to download and install the update.

*DepoView 6.8.1802 Update* – This update is available free of charge to all DepoView license holders. Users may [click here](#) to download the update, then double-click the saved file to install. Alternatively, users may go to the [inData DepoView website](#) and select the Try It Now button to download and install.

Please note that these versions continue to be compatible with Windows 7 and 8 operating systems  
Users with update questions may contact a Customer Care representative at 800-828-8292.
